## Instructions for Use

Inspect and Remove

› Inspect the SwabStrip to confirm that cap is sealed to the strip.

› Grasp the SwabTip and pull off of the strip.

Push and Twist

› Hold male luer and press and twist the SwabTip onto the luer.

› Verify that it is securely in place.

Remove

› To remove SwabTip, grasp the luer and tip and twist SwabTip away from luer until loose. Discard SwabTip after single use—do not reapply to luer.

› Use aseptic technique to attach disinfected luer to patient line.

Note: Sterile. Use aseptic technique. Single use only. Do not reuse. Do not resterilize. Do not use if package is opened or damaged.
Caution: Do not use if SwabTip is not sealed to strip. Do not freeze. Use by expiration date on package.
