

UK GENDER PAY REPORT 2023

EXPLAINER

GENDER PAY GAP measures the difference between the average hourly pay and bonus for female and male colleagues.

MEAN PAY GAP is the difference between the pay or bonus of the average female and the average male colleague. This is calculated by adding the total pay of all females together and dividing by the number of females, and the same for males.

MEDIAN PAY GAP is the difference between the pay or bonus of the ‘middle’ female colleague and the ‘middle’ male colleague when female and male colleagues are listed in order of pay.

EQUAL PAY is different from the Gender Pay Gap. Equal pay is about ensuring colleagues doing the exact same role get the same pay, whatever their gender.
