Help Minimise Blood Exposure While Reducing the Risk of Accidental Needlestick Injury

The SuperCath 5 safety IV catheter combines blood-containment technology with fully encapsulated needle protection to help your efforts to reduce the risk of needlestick injury and comply with the EU Sharps Directive.[1]

Help minimise the risk of blood exposure

Avoid blood leakage during catheter insertion and setup with an integrated blood-containment valve.

Reduce the risk of needlestick injury

Avoid accidental needlesticks and needle exposure with push button, spring-loaded needle encapsulation.

Avoid multiple insertion attempts

Help ensure the catheter is properly in the vessel on the first stick with dual flash technology.

Product Information
